Chairperson Manual

This manual seeks to outline the steps to be followed in the assigning of courses to course instructors. It should be noted that a course may have more than one course instructor. However, it is not possible to have Lecturers assigned to modules with a course. This is to say, assignment can only be at course level only. A course in Moodle is an area where a teacher will add resources and activities for their students to complete. Once a course is created by an administrator or chairperson, a user should be assigned the role of lecturer for the course.

To access the ELearning platform go to <u>www.lms.uz.ac.zw</u>

To login, enter your username and password. If your name is Tendai Chimuti then your username is tchimuti and your password is your *encumber*.

Should fail to login use the link forgot username or password to reset your password.

2. To assign a teacher to a course, click on the course title from the main Moodle page or Go

to Site administration then Courses and then Manage courses and categories
